Assisting Surgeon: Start typing Referrer's name... [Change MBS Items](#) 31426

819 - Remove Expiration Feature from Fee Estimates

For new Fee Estimates going forward, the 'Expiration Months' feature has been removed. As a result, practice staff will now be able to create or remove Fee Estimates without needing to be mindful of expiration dates.

Procedure:* Name:* Expiration Months:*

Nose Reconstruction x Nose Reconstruction 1 Month

4047 - Handling Claims With Some Rejected Items

Claims with a mixture of accepted items and rejected items will now be placed in the Exceptions Tab.

3904 - Improvements in Claims Requiring a Referrer

For claims consisting of items that require a referral, a request from Medicare to include the Date of Referral will ensure that more claims are successfully processed.

4071 - Handling Non-Electronic Claim Payments

ECLIPSE claims can now be manually moved over to the Electronic Remittance Advice (ERA) tab. This is applicable when the payment is received by cheque or bank transfer and manual reconciliation is required. A button has been added to initiate the manual move.

388 - Improved Sort Order of Referrers in Invoices

For patients that have several valid referrals recorded in their patient file, the referral carousel on invoices now sorts those referrals alphabetically by provider name.

3014 - Remittance Advice

When printing a Remittance Advice after invoicing a patient, unless there is insufficient room on the page, the receipt will now print on one page instead of two.

4171 - Number of Patients in Message to Reception

When consulting afterhours or attending nursing home visits, the doctor now has the ability to define the number of patients treated in the Message to Reception window through the clinical screen. This was previously only visible on the invoice page.

4446 - Tyro Terminal Pairing Enhancements

Unnecessary pairing error messages should no longer be displayed.

3018 - Validation Messages in Patient Portal

Patients registering in the Patient Portal will no longer see data validation messages obscuring data entry fields.

4197 - Rename 'Move' Button in Waiting Claims

For claims stuck in Waiting for more than two weeks, the button for manually moving claims out of Waiting has been renamed to 'Move to Exceptions'.

Date of Service	Item No	Invoice No	Patient	Fee

Issues Resolved

4703/PZ-282 - WorkCover SA Certificate Of Capacity

Multiple choice field added. Section C can now be completed as expected.

4054 - Claim Transaction History in Invoices

Invoices now include claim payment transaction history.

401 - Location Field in Multiple Patient Invoices

Improved the behaviour of the Location field on invoices. When invoicing multiple patients at the same location, the location field is disabled.

459 - Invoice History Not Displayed

Resolved an issue where, for some patients, invoice history is not displayed on the Invoice History Page and in the Patient Portal.

3700 - Merge Patients Not Possible After Consult

Patient files are now able to be merged immediately after one of these has consult notes added.

4164 - Lab Result Tags

As a result of applying fixes to the returned HL7 result, when the results are rendered, the user no longer sees tags and instead sees meaningful data.

5008 - Speciality Data Lost When Editing a Contact

Adding a contact in Pathology or Imaging will now result in the Speciality being retained when editing the contact. This means that the data no longer needs to be re-entered.

PZ-126 - Envelope Cutting Off 4th Line

When a company or contact has a 4 line address on a printed envelope,
the 4th line is no longer being cut off.
